

critical information summary for your AAPT 1TB internet SHDSL plan

Information about the Service

Here's a quick summary of all the important bits about your plan.

It covers things like the length of your contract and how much you need to pay each month.

Minimum Term

This plan has a 24 month minimum term.

What's Included and Excluded?

Your SHDSL Internet service includes:

- Static IP Address

You receive a 1TB (1000 GB) Monthly Data Allowance, Your Monthly Data Allowance can be used at any time (day or night). Your Monthly Data Allowance expires each month.

Once you've used your included data allowance, excess data used will be charged at \$15 per GB (where 1 GB = 1000Mbps).

Information about pricing.

The minimum monthly charge is dependent on which connection speed you choose:

Connection Speed	Minimum monthly charge	Unit pricing	Excess data charge
10Mbps/10Mbps	\$350.00	\$0.35/GB	\$15/GB
20Mbps/20Mbps	\$450.00	\$0.45/GB	\$15/GB
50Mbps/50Mbps	\$750.00	\$0.75/GB	\$15/GB
80Mbps/80Mbps	\$850.00	\$0.85/GB	\$15/GB

The minimum amount that you'll pay over the 24 months is dependent on which connection speed you choose:

Connection Speed	Minimum amount paid over 24 months
10Mbps/10Mbps	\$8,400.00
20Mbps/20Mbps	\$10,800.00
50Mbps/50Mbps	\$13,680.00
80Mbps/80Mbps	\$20,400.00

Installation fee

There is an \$899 installation fee per service.

Early Termination

If you choose to cancel your service or it is disconnected for any reason within the contract term you will be charged an early termination fee (ETF) comprised of your minimum monthly commitment multiplied by the months remaining in your contract. You must provide 30 days' notice to us to disconnect a service

Other Information

Availability

SHDSL Internet is not available everywhere. This SHDSL service is delivered using Ethernet over Copper or Ethernet over first mile (EFM). Availability depends on a number of factors including whether the necessary equipment is available at the relevant exchange, the length of the cable to the nearest exchange and the quality of the existing copper pairs that the service runs over.

You need available copper lines in order to get Ethernet in the First Mile Internet, but the line must not be active and in use as a PSTN telephone service. In some cases you may not have enough copper lines at your location for the service to work

Ethernet Speeds

Actual speeds you will receive will vary due to a number of factors such as your distance from the exchange, the network connecting the exchange, your equipment, software and internet traffic.

Download speeds on devices connected via a Wi-Fi modem or network extender may be slower than on devices connected by a fixed Ethernet cable.

Equipment

You may use your own router provided it is compatible with our service, however this means that you will be responsible for the configuration and management of the router. Ask us for information on approved routers. Alternatively you may purchase your router from us. If you do purchase a router from us we will support, monitor and manage the router on your behalf. We recommend Cisco 881 routers which are \$660 each.

Billing

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle.
